Reading: 20 minutes a day for 5 days this week. 100 min. total

ABC Research Journal: ABC Research Journal: The Letter O. In the journal use the next two pages that face each other. On the first page, chose a person whose name starts with this letter and a place. Write at least a 5 sentence paragraph about each subject' facts and another paragraph about personal insights. Include a picture of the person and a map for the place. On the facing page, cut out the math problems, show your work, and answer the problem. Using sentences, explain the steps that helped you solve the problem. Make a border around these two pages drawing or cutting out pictures of things that start with this letter. Make it colorful and fun.

Fill in your checkmarks and evaluation, then cut out and glue onto the next page of the journal for my final evaluation:
