

Statistics Bingo

Directions: Roll a die five times and find the statistic (round to the nearest whole number) for the five numbers rolled that round. Then, shade in the answer on the game board. Only one space can be shaded in for each round. If a set of numbers has more than one mode, either number can be used. If no space matches an answer, or a set of numbers has no mode, do not color a space. The game is over when one player colors five spaces horizontally, vertically, or diagonally.

3	4	5	1	2
4	2	3	5	6
6	4	FREE	3	4
3	5	2	1	2
1	4	1	5	6
